ABOUT THE TEAM

We are privileged to have a team of passionate and experienced trainers who bring a wealth of knowledge and industry expertise to this program. Their dedication to teaching and mentoring has empowered thousands of students to develop technical skills and confidence in emerging technologies. With expertise in Artificial Intelligence, Machine Learning, Data Science, Computer Science, Cloud Technologies, and Cybersecurity, they deliver engaging, hands-on learning experiences that bridge the gap between academics and industry. Through their guidance, students gain practical knowledge, problem-solving abilities, and the confidence needed to excel in their academic journey and future careers. We are delighted to have them with us and look forward to an inspiring and enriching learning experience under their mentorship.

ABOUT THE SESSION

The "Emerging Technologies in Current Industry, Campus to Corporate, and Employability Skills for the Future" training program was organized for the students of the Department of Computer Science at Dharamamurthi Rao Bahadur Calavala Cunnan Chetty's Hindu College, Pattabiram, Chennai. The program aimed to provide students with an understanding of the latest technological advancements, industry expectations, and the essential skills required for a successful professional career. The sessions covered emerging technologies such as Artificial Intelligence, Machine Learning, Cloud Computing, Cybersecurity, Data Science, and Automation, highlighting their growing importance across various industries. Students gained insights into current industry trends, digital transformation, and future career opportunities in the technology sector. The program also focused on the transition from campus to corporate life by addressing workplace culture, professional ethics, communication skills, teamwork, leadership, resume building, and interview preparation. Through interactive discussions, real-world examples, and expert guidance, participants developed both technical awareness and employability skills. The training empowered students to become confident, industry-ready professionals capable of adapting to the evolving demands of the modern workforce.
