Director

Dr. G. Kalvikkarasi
Principal

Sri. M.Venkatesaperumal
Honorary Secretary

Members of Trust Board

Sri M. Venkatesaperumal – President & Honorary Secretary

Sri M. V. Cunniah Chetty – Managing Trustee

Dr. Pravin Tellakula.

Dr. R. Balaji Gupta

Sri G. Chandramohan

Sri Ramesh Chitralla

Sri B. Gautham.

Sri C. Parankusam

Sri Veeraraghava Mukkala

Dr. Vupputur Shakti Akash Raj

About Center for Climate Literacy and Campaign

DRBCCC Hindu College has added another feather to its cap with the launch of the Center for Climate Literacy and Campaign on May 13, 2022. The Center raises awareness of climate change among students, staff, and the wider community, encouraging meaningful engagement and responsible action. This academic year, it organized events for World Nature Conservation Day and World Rivers Day, highlighting the importance of protecting nature and inspiring participants to act for its conservation.

About the Resource Person

Dr. S. Janakarajan is President of the South Asia Consortium for Interdisciplinary Water Resources Studies (SaciWATERS), Hyderabad, and former Professor and Director of the Madras Institute of Development Studies (MIDS), Chennai. An economist and alumnus of DRBCCC Hindu College, his research focuses on water, climate change, urban floods, wetlands, and climate resilience. He has taught and held research appointments at institutions including Cornell University, the University of Oxford, and SOAS, University of London, and has published widely on water and development.

About the event

The Pacific Pulse: Impact of Super El Niño on Our Climate—What Could We Do? explores how a strong El Niño can influence weather patterns and climate, including the risks it may pose to communities and ecosystems. The session will also consider practical ways we can build awareness, prepare for climate impacts, and take informed action. Participants will learn how El Niño may affect rainfall, temperature, and water availability in our region. The discussion will encourage students and staff to consider how communities can strengthen resilience through local initiatives and responsible choices.
